

Every year since 1996, the Portland Business Journal recognizes Oregon's top fastest-growing private companies.

This honor is given to those companies in Oregon that had the largest percentage of growth over a three-year period, and is one of their most popular and competitive awards.

In addition to a record number of submissions from companies looking to make this year's fastest-growing private companies list, the minimum growth requirement to make the list jumped dramatically.

Joseph Bernard, LLC was ranked #35 out of the top Fastest Growing Private Companies by the Portland Business Journal in 2016, #45 in 2013, #56 in 2012, #88 in 2022, #105 in 2017, #136 in 2014, #139 in 2019 and #155 in 2015.

"It is an extraordinarily difficult accomplishment in the best of circumstances, much less in the economic meltdown of the past several years", says Craig Wessel, publisher of the Portland Business Journal.
